FEATURES :

The AVer MD330U is a revolutionary 4K medical-grade PTZ camera designed for telemedicine and patient monitoring. It features a powerful 30X optical zoom, 4K Ultra HD resolution, and a unique detachable camera head for close-up handheld examinations. Certified with IEC 60601-1-2, it ensures safety and reliability in healthcare environments, while its built-in AI noise reduction and infrared night vision provide clear communication and 24/7 monitoring.
