Bosch PRA-AD604 600W IP Amplifier - Flexible 4-Channel Power Allocation

0.00 SAR ✓ In Stock

FEATURES :

- Flexible power partitioning across all channels
- Low power consumption and heat loss
- Full supervision with integrated fail-safe redundancy
- Digital signal processing per channel
- IP-networked on OMNEO for audio and control

Bosch PRA-AD604 Amplifier, 600W 4-Channel Amplifier

Power Output:	600W total capacity, efficiently shared or allocated flexibly across the 4 output channels.
Line Compatibility:	Supports both 100V and 70V constant voltage loudspeaker configurations.
Network & Control:	Uses OMNEO IP architecture with AES70 protocol support, featuring dual Ethernet ports for redundant loop cabling and AES128 audio encryption.
Redundancy & Safety:	Includes an internal spare channel for automatic channel switching redundancy, line monitoring, and short-circuit/overheat protection.
Form Factor:	Space-saving 1 rack unit (1 RU) height built for standard 19-inch equipment racks.
