TOA AT-4030 Attenuator

0.00 SAR ✓ In Stock

FEATURES :

Designed with ergonomics of the human hand in mind, AT-4000 Series Attenuators' control knob comes in a size that provides comfortable grip and excellent control with every turn. Consisting of 8 steps attenuation, the series is built to provide precision volume control with a difference of 3dB in every step. The built-in overriding relay feature allows emergency paging which is indicated by the LED light when activated.
