

1,450.00 SAR ✓ In Stock

FEATURES :

- 16-Zone Precision Control: Seamlessly divide your facility into 16 independent audio zones with individual front-panel on/off toggles.
- Flexible 4+2 Routing Matrix: Features 4 dedicated background music (BGM) amplifier inputs alongside 2 automated emergency override inputs.
- Smart Fire Alarm Integration: Connects with external fire alarm and paging systems to automatically force evacuation announcements across all zones during emergencies.
- One-Touch Global Controls: Equipped with an instantaneous "ALL" button for facility-wide broadcasts, a manual EMG trigger, and a quick RESET key.
- Cascading Network Capabilities: Built-in RS485 communication ports (Dual RJ45) and physical DIP switches allow multi-device networking and central software management.
- Industrial-Grade Reliability: Powered by an advanced internal control core board designed for stable, obstacle-free, continuous 24/7 commercial operation.
- Secure Terminal Connections
- Rugged 2U Rackmount Chassis
- Origin: UAE, Made in China
